WELCOME TO  
THE BRIGHT LIFE.

**ELECTRIC WORKS**

FORT WAYNE | INDIANA

# OUR STORY

**The Electric Works campus first became a center of industrial innovation in 1883. At its peak in 1944, the height of WWII, GE employed about a third of Fort Wayne's workforce. For more than eight decades, the campus churned out electric motors, electrical transformers, and more electronic wonders.**

**In 2015, GE finally closed the campus to stay competitive in a rapidly changing marketplace. 39 acres, eighteen historic buildings, and more than 1.2 million square feet of space in the heart of Fort Wayne sat vacant, waiting for the chance to be reborn and to generate new experiences and new ideas. In 2017, RTM Ventures acquired the property and crafted a plan with the community for a mixed-use development that would become Electric Works.**

*"I've been around the state, been around the country, been around the world. [Electric Works] is second to none in terms of talent attraction, creating talent density."*

**- GOVERNOR HOLCOMB**

If you're looking for a dynamic destination for your business - or the perfect place to start one - look no further than Electric Works.

Opened in 2022, Electric Works is a nationally recognized redevelopment and adaptive reuse of the former General Electric campus in Downtown Fort Wayne. As a mixed-use district of innovation, energy and culture, Electric Works includes more than 700,000 square feet of space and offers office, innovation, education, healthcare, retail, entertainment and community uses to create new opportunities for inclusive economic culture.

From a global corporate headquarters to an entrepreneurial start-up, Electric Works has a high-performance workplace for any business.

- Traditional Long-term Suite, Build-to-Suit Space

# CHOOSE FORT WAYNE

Located in the heart of the Midwest, Fort Wayne is the second largest city in Indiana and serves as the urban center of Northeast Indiana, a region of approximately 800,000 people.

The city is in the midst of a long-term, robust and dynamic revitalization with new living options and economic development projects centered around downtown and the riverfront areas. Since 2009, downtown Fort Wayne has experienced over \$1 billion in new development with plans for nearly \$600 million in private and public investments over the next 2-3 years. In addition to development, business is booming in Fort Wayne due to Indiana's competitive tax climate, business culture and state incentives.

Residents in Fort Wayne have access to amenities one would expect to find in a large metropolis, like excellent entertainment options, amazing sports and a thriving arts scene. With its low cost of living, big city amenities and thriving business climate, Fort Wayne is an excellent place to buy a house, raise a family, start a career and launch a business.
